

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 1 of Total 6

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION			
Trade Name:	CRYSTAL GLASSWASH (Drinking glass wash)		
SUPPLIER:	BUSHBY CLEANING PRODUCTS		
ADDRESS:	21 Activity Crescent, Molendinar Qld 4214		
TELEPHONE:	07 5539 2244 FAX: 07 5539 2477		
AH EMERGENCY TELEPHONE:	13 1126 in Australia	Product Code:	
Substance:	Water based	Product Use:	Detergent
Creation Date:	SEPTEMBER 2021	Revision Date:	SEPTEMBER 2026

SECTION 2 – HAZARDS IDENTIFICA	ATION		
Classification of the substance or	mixture		
Poisons Schedule	S5 (ALKALINE SALTS)		
Dangerous Goods	Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.		
GHS Classification	Classified as Hazardous according to the Globally Harmonised System of Classification and		
	labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.		
	Serious Eye Damage/Irritation Category 1		
	Skin Irritation Category 2		
Label elements			
GHS label pictograms	GHS05		
Signal word	DANGER		
Hazard statement(s)			
H318	Causes serious eye damage.		
H315	Causes skin irritation.		
H402	Harmful to aquatic life.		
Precautionary statement(s): Gene	eral		
P102			
P103	Read label before use.		
Precautionary statement(s): Prev	ention		
P280	Wear eye protection/face protection and protective gloves.		
P264	Wash hands and skin thoroughly after handling.		
P273	Avoid release to the environment.		
Precautionary statement(s): Resp	oonse		
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.		
P310			
P302 + P352			
P332 + P313	If skin irritation occurs: Get medical advice/attention.		
P362 + P364	Take off contaminated clothing and wash it before reuse.		
P321	Specific treatment (see First Aid Measures on Safety Data Sheet).		
Precautionary statement(s): Stora	age		
	None allocated		

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 2 of Total 6

Precautionary statement(s): Disposal		
P501 Dispose of contents/ container in accordance with local regulations.		
Note		
IMPORTANT This SDS and the Hazard Classifications contained therein, only apply to the product in its		
concentrated form, as supplied. When diluted to 1:10 or greater they may no longer apply		
	However, good hygiene and housekeeping practices should be adhered to.	

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS		
Ingredients:	CAS Number:	Proportion:
Disodium dioxide(oxo)silane	10213-79-3	< 10% w/w
Sodium hydroxide	1310-73-2	< 10 % w/w
Ingredients determined to be non- hazardous	various	< 10 % w/w
Water	7732-18-5	To 100 % w/w

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011. Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

SECTION 4 – FIRST AID MEASURES		
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.	
Skin contact	Immediately wash contaminated skin with plenty of soap and water. Remove contaminated	
	clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness persists.	
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Immediately call a POISON CENTER or doctor/physician.	
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).	
Advice to Doctor	Treat symptomatically.	
Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).	
First Aid Facilities	Eye wash station. Normal washroom facilities.	

SECTION 5 – FIRE FIGHTING MEASURES			
Fire and Explosion	Non-flammable liquid. However, on evaporation of the aqueous component, the residual		
Hazards	material may burn.		
<b>Extinguishing Media</b>	Use an extinguishing media suitable for surrounding fires.		
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.		
Flash Point	None		

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 3 of Total 6

ı	SECTION 6 – ACCIDENTAL RELEASE MEASURES		
	Emergency Procedures	Minor spills do not	

Emergency Procedures Minor spills do not normally need any special clean-up measures – rinse with water.

In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate personal protective equipment and clothing to prevent exposure. Increase ventilation. As a water-based product, if spilt on electrical equipment the product will cause short-circuits. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

SECTION 7 – HANDLING AND STORAGE			
Handling	Avoid skin or eye contact with concentrate. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with soap and water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use.		
Storage	Store in a cool, dry, well-ventilated area, out of direct sunlight. Protect from freezing. Store in suitable, labelled containers. Keep containers tightly closed. Store away from incompatible materials. Ensure that storage conditions comply with applicable local and national regulations.		

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION			
Exposure Limits	National Occupational Exposure Limits, as published by National Occupational Health & Safety		
	Commission:		
	Time-weighted Average (TWA):		
	None established for product.		
	Sodium hydroxide: 2 mg/m3 Peak limitation		
	Short Term Exposure Limit (STEL):		
	None established for product.		
Ventilation	Ensure adequate ventilation.		
Personal Protective	Use good occupational work practice. The use of protective clothing and equipment depends		
Equipment	upon the degree and nature of exposure. The following protective equipment should be		
	available;		
Eye Protection	Generally not required for typical applications with <b>diluted solutions</b> as per label directions.		
	Safety glasses with full face shield should be used for handling concentrate in quantity, cleaning		
	up spills, decanting, etc. Eye protection devices should conform to relevant regulations. Eye		
	protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors		
	for Industrial Applications.		
Hand Protection	Wear gloves of impervious material such as butyl rubber, natural latex, neoprene, PVC and		
	nitrile – to handle in quantity, clean up spills, decanting, etc. Final choice of appropriate gloves		
	will vary according to individual circumstances. i.e. methods of handling or according to risk		
	assessments undertaken. Occupational protective gloves should conform to relevant		
	regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.		
Body Protection	Selection, use and maintenance.		
Body Protection	Suitable protective workwear, e.g. rubber or plastic apron, sleeves, boots and cotton overalls		
	buttoned at neck and wrist are recommended. Chemical resistant apron is recommended where		
	large quantities are handled.		
Respirator			
	Generally not required for typical applications with <b>diluted solutions</b> as per label directions.		

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 4 of Total 6

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES			
Physical State	Non-viscous liquid	Colour	Straw
Odour	characteristic odour	Specific Gravity	1.10 – 1.15 @ 25 °C
<b>Boiling Point</b>	Approximately 100 °C	Freezing Point	Approximately 0 °C
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	none
Water Solubility	Miscible in all proportions	рН	12.5 – 13.5 neat
Volatile Organic	0 % v/v	Per Cent Volatile	≈90 % v/v
Compounds (VOC)	0 % ۷/۷		
Viscosity	Not available	Odour Threshold	Not available

SECTION 10 – STABILITY AND REACTIVITY		
Reactivity Stable at normal temperatures and pressure.		
Conditions to Avoid	onditions to Avoid Extremes of temperature and direct sunlight.	
Incompatibilities Reducing agents, oxidizing agents.		
Hazardous		
<b>Decomposition</b> Thermal decomposition may result in the release of toxic and/or irritating fumes.		

SECTION 11 – TOXICOLOGICAL INFORMATION			
POTENTIAL HEALTH EFFECTS			
No adverse health effects ex	No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label.		
Symptoms or effects that m	ay arise if the product is mishandled and overexposure occurs are:		
Inhalation	Exposure to generated dusts of this product may cause nose and throat irritation.		
Skin contact	Properly diluted solutions not expected to be irritating to skin. Contact with concentrate may be irritating to skin. The symptoms may include redness, itching and swelling.		
Eye contact	Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging, blurring, tearing. Contact with concentrated product may cause serious eye damage.		
Ingestion	Ingestion of this product may irritate the gastric tract causing nausea and vomiting.		
Chronic exposure	nronic exposure No known effects.		
<b>Toxicology Information</b>	pgy Information Not toxic, based on ingredients. Oral LD50 (calculated): >10,000 mg/L		
Carcinogen Status			
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.		
NTP	No significant ingredient is classified as carcinogenic by NTP.		
IARC	No significant ingredient is classified as carcinogenic by IARC.		
Respiratory sensitisation	Respiratory sensitisation Not expected to be a respiratory sensitizer.		
Skin Sensitisation	Skin Sensitisation Not expected to be a skin sensitizer.		
Germ cell mutagenicity	Germ cell mutagenicity Not considered to be a mutagenic hazard.		
Reproductive Toxicity	icity Not considered to be toxic to reproduction.		
STOT-single exposure	Not expected to cause toxicity to a specific target organ.		
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.		
Aspiration Hazard	Not expected to be an aspiration hazard.		

SECTION 12 – ECOLOGICAL INFORMATION	
Acute Aquatic Toxicity	Not harmful to aquatic life. LC50 > 100mg/L.
Product (as sold)	Acute Aquatic Toxicity (Calculated) LC50: 790 – 3600 mg/L.
	Acute Aquatic Toxicity NOT HAZARDOUS
	NOTE: The hazard of the substance for the environment is caused by the hydroxyl ion (pH effect). For this reason the effect of the substance on the organisms depends on the buffer capacity of the aquatic or terrestrial ecosystem. The high water solubility and low vapour pressure indicate that the substance will be found predominantly in water. Also the variation in

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 5 of Total 6

	acute toxicity for aquatic organisms can be explained for a significant extent by the variation in buffer capacity of the test medium. LC50 values for SODIUM HYDROXIDE ranged between 33 and 189 mg/l.
Aquatic Toxicity	Not harmful to aquatic life. LC50 > 100mg/L.
Product (at use dilution	Acute Aquatic Toxicity (Calculated) LC50: 79,000 – 360,000 mg/L.
1:100 rinse)	Acute Aquatic Toxicity NOT HAZARDOUS
Persistence and	Biodegradable, based on ingredients.
degradability	
Bio accumulative	No bioaccumulation is expected.
potential	
Mobility in soil	Due to its physico-chemical characteristics, highly mobile in the environment and will partition
	to the aquatic compartment.
Other adverse effects	Not available
<b>Environmental Protection</b>	Do not discharge this material into waterways.

# Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance

with all applicable local and national regulations.

**SECTION 14 – TRANSPORT INFORMATION Labels Required** Not classified as Dangerous Goods. **ADG IMDG Marine Pollutant** No **HAZCHEM** None allocated. Land Transport (ADG) None allocated. **UN Number ADG Code** None allocated. **HAZCHEM Code** None allocated. **Special Provisions** None allocated. **Packing Group** None allocated. None allocated. **Packaging Method** Segregation None allocated.

SECTION 15 – REGULATORY INFORMATION		
GHS Classification	Classified as Hazardous according to the Globally Harmonised System of Classification and	
	labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.	
SUSMP	S5 (ALKALINE SALTS)	
ADG Code	Not DG	
AICS	All ingredients present on AICS.	

SECTION 16 – OTHER INFORMATION		
Issue Date	29 <sup>th</sup> September 2021	
Version Number	V 3.0 GHS7 Classification.	
Abbreviations and	ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail.	
acronyms	AICS: Australian Inventory of Chemical Substances.	
	CAS Number: Chemical Abstracts Service Registry Number.	
	GHS: Globally Harmonized System of Classification and Labelling of Chemicals	

Product Name: CRYSTAL GLASSWASH

Date of Issue: September 2021 V3.0 Page 6 of Total 6

	HAZCHEM: An emergency action code of numbers and letters which gives information to emergency
	services.
	HSIS: Hazardous Substances Information System
	IARC: International Agency for Research on Cancer.
	NOHSC: National Occupational Health and Safety Commission.
	NTP: National Toxicology Program (USA).
	SDS: Safety Data Sheet
	STEL: Short Term Exposure Limit.
	SUSMP: Standard for the Uniform Scheduling of Medicines and Poisons.
	TWA: Time Weighted Average.
	UN Number: United Nations Number.
Literature references	Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice ( Safe Work Australia)

Disclaimer	This SDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
